**experimental evidence of temperature ratio effect on ...** - flow field, the aerodynamics and heat transfer can be studied separately. recent numerical studies raised a question on the validity of this conventional practice. due to the relatively low thermal inertia of the leakage fluids contained within the thin clearance, the fluids transport properties vary greatly with the wall thermal boundary condition and the two-way coupling between otl ... **convective heat transfer and icing of wind turbine blades** - convective heat transfer and experimental icing aerodynamics i abstract the total worldwide base of installed wind energy peak capacity reached 94 gw by the end of 2007, including 1846 mw in canada. wind turbine systems are being installed throughout canada and often in mountains and cold weather regions, due to their high wind energy potential. harsh cold weather climates, involving ... **developing a combustor simulator for investigating high ...** - for investigating high pressure turbine aerodynamics and heat transfer m.d. barringer and k. a. thole mechanical engineering department virginia polytechnic institute and state university blacksburg, va 24061 m.d. polanka air force research laboratory turbines branch wpafb, oh 45433 abstract within a gas turbine engine, the high pressure turbine vanes are subjected to very harsh conditions ... **hp vane aerodynamics and heat transfer in the presence of ...** - dimensional parameters for aerodynamics and heat transfer are matched to engine condi- tions. the research turbine was the unshrouded mt1 design. by design, the center of the vortex from the swirl ... **effects of combustor exit proÃ-Ã-Ã-les on vane aerodynamic ...** - and heat transfer in a high pressure turbine the Ã-Ã-Ã,ow and thermal Ã-Ã-Ã-elds exiting gas turbine combustors dictate the overall perfor- mance of the downstream turbine. the goal of this work was to investigate the effects of engine representative combustor exit proÃ-Ã-Ã-les on high pressure turbine vane aerodynamics and heat transfer. the various proÃ-Ã-Ã-les were produced using a nonreacting turbine ... **advanced multistage turbine blade aerodynamics ...** - p13 advanced multistage turbine blade aerodynamics, performance, cooling, and heat transfer sanford fleeter (fleeter@ecn.putdue; 317-494-5622) **aerodynamics and heat transfer for airfoil-endwall ...** - aerodynamics and heat transfer for airfoil-endwall junctures in gas turbine engines stephen lynch karen thole virginia tech experimental and computational convection laboratory **high reynolds number and turbulence effects on ...** - high reynolds number and turbulence effects on aerodynamics and heat transfer in a turbine cascade frederick c. yeh, steven a. hippensteele, g. james vanfossen,
